

Company Introduction

We are the Helveticode team, and we have been present on the IT market since 2018. Many successfully implemented projects are behind us and we are now moving forward to the new opportunities. If you would like to be a part of our upcoming adventures, feel free to contact us about joining the team.

Job Description

We are looking for a **SENIOR/MEDIOR** JavaScript developer who is proficient with React.js. Your primary focus would be on developing user interface components and their implementation following well-known React.js workflows (such as Flux or Redux). You would ensure that these components and the overall application are robust and easy to maintain. You would coordinate with the rest of the team working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and a quality product is important.

Responsibilities

- Developing new user-facing features using React.js
- Building reusable components and front-end libraries for future use
- Translating designs and wire frames into high quality code
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers

Skills

- Strong proficiency in JavaScript, including DOM manipulation and the JavaScript object model
- HTML, CSS
- Redux
- Thorough understanding of React.js and its core principles
- Experience with popular React.js workflows (such as Flux or Redux)
- Familiarity with newer specifications of ECMAScript
- Experience with data structure libraries (e.g., Immutable.js)
- Knowledge of isomorphic React is a plus
- Familiarity with RESTful APIs
- Knowledge of modern authorization mechanisms, such as JSON Web Token
- Familiarity with modern front-end build pipelines and tools
- Experience with common front-end development tools such as Babel, Webpack, NPM, etc.
- Ability to understand business requirements and translate them into technical requirements

- A knack for benchmarking and optimization
- Familiarity with code versioning tools (such as Git, SVN, and Mercurial)
- SQL

Requirements

- Working knowledge of Vue.js
- Knowledge of React Native
- Development of mobile applications
- **Minimum 5 years of experience** working with the React.js library
- Experience designing, developing and testing responsive web applications
- Advanced knowledge of the English language

Why Should You join us?

- Additional Health Insurance
- Competitive salaries and conditions
- Flexible working hours
- Possibility to work from home
- Pleasant working environment
- Provided parking space
